Mosquitoes are a menace. Period. Its bite is deadlier than the pain it inflicts. Fatal diseases like Malaria, Dengue and Brain Fever get transmitted by these tiny creatures. To prevent these you need effective Mosquito Management. Fogging is considered as an important tool to manage the adult mosquitoes, which has the capability of spreading these diseases. Managing adult mosquito not only disturb the life cycle of mosquito by bringing down the population of those mosquitoes which has the potential to multiply.

Thermal Fogging is done at the time of the day when these mosquitoes are active which maybe in early morning or evening hours and sometimes night fogging is also recommended for special cases.

Foggers India offers you LOC Handy Fogging Machine. To manage mosquitoes the way you want to. And you can do it yourself. It helps you manage Mosquito menace. LOC Handy Fogging Machine is most effective for small areas like poultry farms, bungalows, party lawns, housing societies, farm houses, schools, etc.
